If this is your first enrolment, please answer the questions below, if applicable. You do not have to answer these questions if you have already enrolled on an earlier module.

If you want to enrol on Modules 2 or 3 of the Foundation Course, and you do not want to enrol on Module 1, please could you give us some information in the box below about your current knowledge of astrology and where you acquired it?

If you want to enrol on the **Diploma Course**, and you have not studied the Foundation Course with astrologycollege.com, please could you answer the questions below about your previous studies in astrology?

a) Have you learnt astrology with another school, college, or adult education class?

If so where?.....

What was the level of the course?.....

Have you passed any astrology examinations? Yes/No.

If so which ones?.....

b) Please answer yes or no to the following questions.

Depending on how many answers are 'no', you may still be able to enrol on the Diploma Course, but you could be asked to fill in some gaps in your knowledge for which there will be a fee depending on the course material and involved. Alternatively, it may be decided that you need to enrol on one or more modules of the Foundation Course.

Can you accurately calculate and draw up a natal chart from given data using the Equal, Placidus or another House System, for any geographical location, using an ephemeris, tables of houses, proportional logarithms or a scientific calculator?

Have you written a basic natal chart interpretation of between 2000 and 5000 words? This should demonstrate an understanding of the main themes, potential and conflicts in the chart.

Some astronomy questions. Have you covered?

the planets, asteroids, centaurs and Kuiper Belt objects in the Solar System;

the terrestrial coordinates of longitude and latitude;

the equatorial, ecliptic and horizon systems of celestial co-ordinates;

the Moon's phases; solar and lunar eclipses (at a basic level); the Moon's Nodes;

retrograde motion of the planets;

GMT, the international date line, zone standards, daylight saving time, local mean time, sidereal time, sidereal months/years, tropical months/years.

Please give your birth data.

Date of birth.....Month.....Year.....

Place of birth: Town or village..... Nearest large town/city.....

Country.....Time of birth (clock time as given):.....am/pm

And/or state in 24 hour clock..... Is the time accurate or approximate as far as you know?.....

If it is approximate, please give a time range in which you believe the birth took place, (e.g. between 2am and 4am), or say you do not know at all.....

Course Fees

The fees listed below cover sending course material by email in pdf format, or hard copy, and include 6 months tuition per module, (4 months for the Taster Course). The course material includes the Manual which contains the lessons, and the Course Manual which contains the exercises.

If you order the course material in pdf format, it is much easier to read and absorb if you can print it off. It can be difficult to absorb the lessons and the exercises if you are only looking at it online.

All module fees are in £ sterling
